

The National Drug Code (NDC) Units Calculator Tool is a user-friendly online tool that allows providers to convert applicable classified or specified Healthcare Common Procedure Coding System (HCPCS) or Current Procedural Terminology (CPT®) codes to NDC units. The tool (also known as RC Claim Assist™) is hosted by RJ Health, an independent third-party pharmaceutical specialty company.

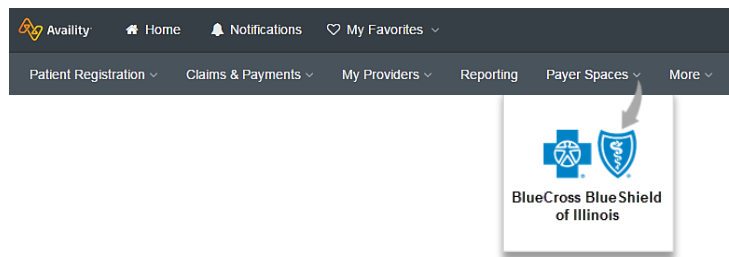

The NDC Units Calculator Tool is accessible in the Blue Cross and Blue Shield of Illinois (BCBSIL) branded Payer Spaces section via the Availity Portal. It's also available on our secure Blue Access for ProvidersSM site, along with the NDC Reimbursement Schedule. There's a National Drug Code (NDC): Billing Resources box on our [Provider homepage](#) with links to [register](#) or [log in](#) to Blue Access for Providers.

The following information instructs users how to access and use the NDC Units Calculator Tool via Availity.

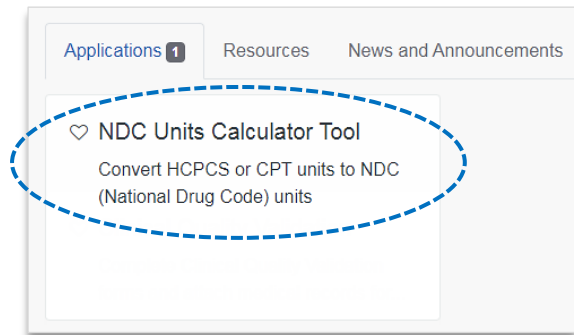

Not yet registered with Availity? Visit [Availity](#) and complete the online registration today, at no cost.

1) Getting Started

- ▶ Log into [Availity](#)
- ▶ Select **Payer Spaces** from the navigation menu
- ▶ Choose **Blue Cross and Blue Shield of Illinois**

- ▶ On the BCBSIL Payer Spaces page, select **Applications**
- ▶ Select **NDC Units Calculator Tool**
- ▶ Users will be redirected to RC Claim Assist

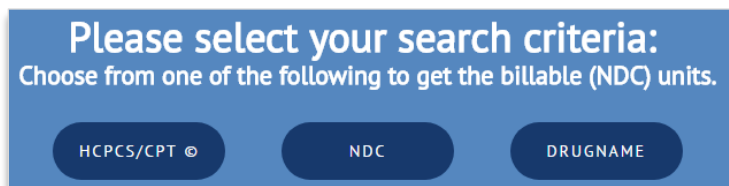

Note: Contact your Availity Administrator if **NDC Units Calculator Tool** is not listed under the Applications tab in BCBSIL-branded Availity Payer Spaces.

2) Selecting Search Criteria

From the home screen, select one of the following search options:

- ▶ **HCPCS/CPT**
- ▶ **NDC**
- ▶ **Drug Name**

3) Search by HCPCS/CPT Code

Searching by HCPCS/CPT code:

- ▶ Enter the **HCPCS/CPT code**
- ▶ Select the appropriate code from the list

Notes:

- Users may search using a minimum of three characters when using the **HCPCS/CPT**, **NDC** or **Drug Name** search options.
- Select **New Search** to search for a different **HCPCS/CPT**, **NDC** or **Drug Name**.

- ▶ Next, select the applicable **NDC** from the list, or enter an NDC to narrow your search

- ▶ Enter the **Number of Units** administered
- ▶ Hit **Enter**

Search Select HCPCS Code Select NDC Code Unit Conversion

Enter the HCPCS/CPT® Drug code and make your selection.
Search using a minimum of 3 characters to lookup by HCPC code

J0744

1 of 1 pages of 4 results

J0744	Injection, ciprofloxacin for intravenous infusion, 200 mg
59924	Injection, ciprofloxacin, 200mg (Code deleted as of January 1, 2002, refer to J0744)

Search Select HCPCS Code Select NDC Code Unit Conversion
