

If a conflict arises between a Clinical Payment and Coding Policy ("CPCP") and any plan document under which a member is entitled to Covered Services, the plan document will govern. If a conflict arises between a CPCP and any provider contract pursuant to which a provider participates in and/or provides Covered Services to eligible member(s) and/or plans, the provider contract will govern. "Plan documents" include, but are not limited to, Certificates of Health Care Benefits, benefit booklets, Summary Plan Descriptions, and other coverage documents. BCBSIL may use reasonable discretion interpreting and applying this policy to services being delivered in a particular case. BCBSIL has full and final discretionary authority for their interpretation and application to the extent provided under any applicable plan documents.

Providers are responsible for submission of accurate documentation of services performed. Providers are expected to submit claims for services rendered using valid code combinations from Health Insurance Portability and Accountability Act ("HIPAA") approved code sets. Claims should be coded appropriately according to industry standard coding guidelines including, but not limited to: Uniform Billing ("UB") Editor, American Medical Association ("AMA"), Current Procedural Terminology ("CPT®"), CPT® Assistant, Healthcare Common Procedure Coding System ("HCPCS"), ICD-10 CM and PCS, National Drug Codes ("NDC"), Diagnosis Related Group ("DRG") guidelines, Centers for Medicare and Medicaid Services ("CMS") National Correct Coding Initiative ("NCCI") Policy Manual, CCI table edits and other CMS guidelines.

Claims are subject to the code edit protocols for services/procedures billed. Claim submissions are subject to claim review including but not limited to, any terms of benefit coverage, provider contract language, medical policies, clinical payment and coding policies as well as coding software logic. Upon request, the provider is urged to submit any additional documentation.

Oral Screening Lesion Identification Systems and Genetic Screening

Policy Number: CPCPLAB032

Version 1.0

Enterprise Medical Policy Committee Approval Date: January 25, 2022

Plan Effective Date: May 1, 2022

Description

BCBSIL has implemented certain lab management reimbursement criteria. Not all requirements apply to each product. Providers are urged to review Plan documents for eligible coverage for services rendered.

Reimbursement Information:

1. For individuals with oropharyngeal squamous cell carcinoma, high-risk HPV testing by one of the following methods **may be reimbursable**:
 - a. HPV E6/E7 mRNA expression testing OR
 - b. Expression of p16 as detected by immunohistochemistry
2. Oral screening, lesion identification systems and genetic testing **is not reimbursable** for all uses. This includes, but is not limited, to the following:

- a. OraRisk® HPV Complete Genotyping Test and OraRisk® HPV 16/18/HR Test (OralDNA labs, Brentwood, TN)
 - b. MOP™ testing
 - c. SaliMark OSCC® (PeriRx)
3. The use of salivary biomarkers to screen, detect, or diagnose oral cancer **is not reimbursable**. This includes, but is not limited, to the following:
- a. Salivary peptides and proteins, such as protein 14, Mac-2 binding protein, profilin 1, CD59, defensin-1, IL-1 β , IL-8, lactate dehydrogenase, and catalase
 - b. Salivary nucleic acids, such as methylated DNA testing, mRNAs, modified nucleotides (such as 8-OHdG), microRNA (miRNAs)
 - c. Salivary metabolites, such as valine, lactic acid, and phenylalanine
